

It was a freak accident; a million to one freak. The Force wanted to punish the twelve women because of the way they had denigrated the towns name. It caused their bus to have a blow-out, and sent it down into some bushes. The women were shook up, but not injured. However, a big rock had ripped the gas tank off. Sixty gallons of gas bounced down the slope and hit the bus like a napalm bomb. The men wanted to abandon the town, but Matt couldnt allow that because of the four-hundred-year-old curse on his family. So he subsidised the population and got the Force to agree it would provide each of the bereaved males with a baby. We just needed some females. Karen was first, and her two pregnancies went so smooth shes moren happy with the life she now has. So we didnt stop to think when you drifted in. A sad shake of his head at the way things had turned out, and the deaths that had occurred. Biggest mistake we couldve made. No-one in town had ever met a female as feral as you! Warning:- This novel contains strong Adult Themes.
