

Made to Forget (Nepherium Novella Series Book 1)

There's something that lies within my memory. Hidden in the dark. Something that can kill me and those that I love. But I was in an accident, covered in mystery and deception. And my memory was lost. There are those who want me to remember. I don't trust them. And those I do trust are fighting for me to forget. Elisabetha Ellery wants to get her memory back, even if it kills her. After waking up in a hospital with no memory, Elisabetha quickly learns those who claim to be her friend are anything but. And those who are her true friends keep themselves unseen. Stuck with piecing together her broken memories alone, Elsa struggles with having faith in those she trusts and heeding the warnings of the dangers in recovering her memory. Ignoring them, she faces heavy consequences. Ones she doesn't see until it's too late, and a life is lost.
